KRISTEL MAGPAYO

Data Scientist/ UI/UX Design

Profile

Detail-oriented and highly motivated third-year student pursuing a Bachelor of Science in Information System, with a foundational degree in Computer Technology. Eager to build a career in data science and writing, combining analytical skills with a passion for technical and creative writing. Keen on exploring freelance opportunities, workshops, and community involvement to enhance skills in data management, content creation, and technical communication.

Relevant Experience

Copywriter and Photographer

Matuwid Journalism Club

- Wrote and edited articles for school publications, focusing on clear and engaging content to inform and captivate readers.
- Developed basic copywriting skills, learning to tailor messages to specific audiences and communicate effectively.
- Enhanced photography skills by covering school events, capturing high-quality images, and understanding visual storytelling.
- Collaborated with a team of student journalists, contributing to a supportive and creative team environment.

Personal Project: Portfolio Website

- Developed and deployed a personal portfolio website using GitHub Pages showcasing projects and skills in HTML, CSS, and JavaScript.
- Implemented interactive features using JavaScript to enhance user experience.
- Exploring Technical Writing, API Documentation and User Manual

SQL and Web Management

- Web Development and Programming Languages
 - Skilled in creating and deploying websites using GitHub Pages.
 - Deployed HTML, CSS, and JavaScript for building responsive web applications.
 - Basic understanding in Python and Java
- Database Management:
 - Implemented SQL for database queries and data manipulation (command line usage).
- Development Tools:
 - Proficient in using Visual Studio Code (VS Code) for coding and project management.
